

COLLEGE UBT

UBT RESEARCH PERFORMANCE  
REPORT 2024

September 2024

## 1. INTRODUCTION

The **UBT Research Performance Report 2024** provides a comprehensive overview of the research achievements of UBT's academic staff and departments. It is structured to present a narrative and analytical summary of research activities, along with supporting tables and figures for enhanced understanding. The report covers research outputs indexed by SCOPUS, collaboration with various institutions, and the university's alignment with Sustainable Development Goals (SDGs). The following sections detail the research productivity of UBT staff, department performance, and international collaborations.

## 2. RESEARCH PRODUCTIVITY OVERVIEW

The research performance of UBT tenured academic staff indexed by SCOPUS is analyzed based on the number of publications and the variety of subject areas they contribute to. The data captures publications that are explicitly associated with UBT. **Table 1** provides a detailed breakdown of research performance by individual staff members, listing the number of publications and the associated subject areas.

This table highlights the breadth and depth of research conducted by UBT staff across disciplines such as Engineering, Computer Science, Business Management, and Medicine. Researchers like Edmond Hajrizi, Yll R. Haxhimusa, and Hazir Selim Çadraku are notable for their extensive publication record across various fields.

SCOPUS indexed research performance of UBT tenured academic staff that published under the name of UBT is presented in Table 1:

**Table 1: Research performance by academic staff**

Author Name	Auth-ID	Number of Documents	Subject Area
Hajrizi, Edmond	25122467600	66	Engineering Computer Science Business, Management and Accounting Energy Decision Sciences Environmental Science Physics and Astronomy Mathematics Social Sciences Materials Science
Haxhimusa, Yll R.	35614454200	38	Computer Science Mathematics Biochemistry, Genetics and Molecular Biology Engineering Physics and Astronomy

### 3. RESEARCH PERFORMANCE BY DEPARTMENT

The research productivity is also evaluated on a departmental level to provide insights into the overall contribution of each field of study. **Table 2** illustrates the number of documents produced by each department, emphasizing the leading areas such as Engineering, Social Sciences, and Environmental Science.

The research performance of different departments broken down by departments is presented in Table 2.

**Table 2: Research performance by subject area or departments**

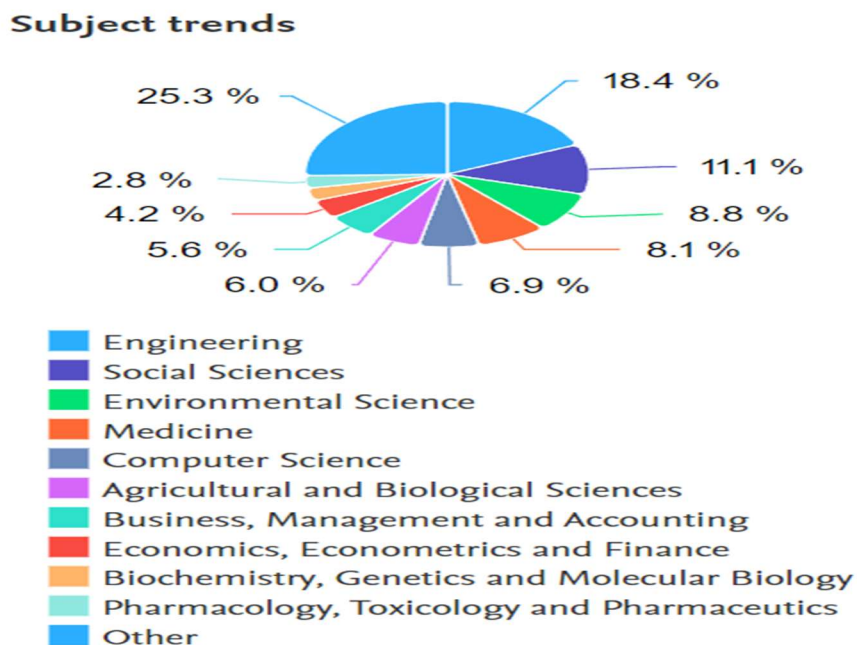

Code	Documents Count	Title
ENGI	241	Engineering
SOCI	145	Social Sciences
ENVI	115	Environmental Science
MEDI	107	Medicine
COMP	90	Computer Science
AGRI	79	Agricultural and Biological Sciences
BUSI	74	Business, Management and Accounting
ECON	55	Economics, Econometrics and Finance
BIOC	37	Biochemistry, Genetics and Molecular Biology
PHAR	37	Pharmacology, Toxicology and Pharmaceutics
ENER	35	Energy
CHEM	33	Chemistry
MATE	32	Materials Science
MATH	32	Mathematics
PHYS	32	Physics and Astronomy
EART	31	Earth and Planetary Sciences
ARTS	21	Arts and Humanities
DECI	19	Decision Sciences
CENG	18	Chemical Engineering
IMMU	18	Immunology and Microbiology
HEAL	17	Health Professions
MULT	11	Multidisciplinary
DENT	9	Dentistry
NEUR	9	Neuroscience
PSYC	8	Psychology
NURS	4	Nursing
VETE	3	Veterinary

The data presented in Table 2 shows the prominence of Engineering as the leading department with the highest count of documents, followed closely by Social Sciences, Environmental Science,

and Medicine. This distribution reflects UBT's multidisciplinary approach and focus on a wide range of research domains.

To visually represent the research productivity across departments, **Figure 1** provides a bar chart illustrating the number of publications within each discipline.

Figure 1: Graphical presentation of research performance by departments

#### 4. RESEARCH INSTITUTIONAL COLLABORATION

UBT actively collaborates with numerous institutions worldwide, contributing to a rich body of joint research. **Table 3** lists the top collaborating institutions and the number of SCOPUS-indexed publications they share with UBT. Collaborations span globally, including partnerships with Imperial College London, University of Melbourne, Karolinska Institutet, and many others.

Name of collaborating institutions that published together with UBT is presented in Table 3.

**Table 3: Collaborating institutions in SCOPUS indexed articles**

Name of the collaborating institution	Documents
Imperial College London	5
University of Melbourne	6
The University of Sydney	5
Sapienza Università di Roma	8
The University of Manchester	7
National University of Singapore	4

Table 3 showcases the reach of UBT's collaborative efforts, emphasizing the university's international research network. Some key partnerships involve frequent co-publications, illustrating the collaborative nature of UBT's research.

## 5. RESEARCH CONTRIBUTIONS TO SDG DEVELOPMENT GOALS

UBT's research efforts are also aligned with the Sustainable Development Goals (SDGs), reflecting the university's commitment to global development and sustainability. **Figure 2** presents the contribution of UBT's research to various SDGs.

Figure 2 provides a graphical representation of UBT's research outputs aligned with each SDG, demonstrating UBT's role in advancing these goals.

Research performance of UBT by achievement of SDG Goals is presented in Figure 2.

Fig 2: Research performance in contribution to SDG Development Goals

## 6. UBT H-INDEX AND CITATIONS

UBT ranks highly within Kosovo in terms of its H-index across multiple platforms:

- **Third place** in Kosovo for H-index according to **Google Scholar** and **SCOPUS**.
- **Second place** in terms of citations in **Web of Science**.

For more details, the link to the rankings is available at <https://xk.h-index.com/en/university-for-business-and-technology/scholar>

## 7. CONCLUSION

The **UBT Research Performance Report 2024** reflects the university's growing contributions to research across a broad spectrum of disciplines. The university demonstrates substantial engagement in collaborative projects and maintains an impactful presence in the achievement of the Sustainable Development Goals. Continued efforts will enhance UBT's research capabilities, global collaborations, and its position within the academic community of Kosovo and beyond.
