Subject	ADMINISTRATIVE LAW					
	Type Semester ECTS	Code				
	(E) V 4					
Course Lecturer						
Aims and Objectives	The course objective presents the set legal norms as well as the relationships that are established through or in relation to those norms. So, the subject matter of administrative law is the legal norms that regulate administrative activity, depending on what the state regulation of a particular country means at a given time.  The objectives of the course are closely related to the knowledge, knowledge that is gained theoretically and arguably in three main parts of the subject:  1. Introduction to administrative law mainly with theoretical material on the basic concepts and main institutions of administrative law.  2. Lectures related with the theme of the organization of state administration bodies and the organizational structure of the state administration in accordance with the positive legislation of the country  3. The third section deals with the issues referring the administrative procedure and administrative conflict (dispute)
